#### Enalish

Students will be reading Friend or Foe as a class and using the text to infer information while looking at different types of language that are used. They will then use what they have learnt to write their own stories focussing on engaging language and well structured sentences.

#### Maths

Students will be working with the four operations, including some tricky multistep problems and understanding how the correct order of operation is applied. Following this topic we are moving on to working with fractions.

#### Science

Students will be working with Forces and Mechanisms, including gravity, water resistance, air resistance and friction. Our next topic focuses on our Solar System as we learn more about other planets and the effects of space on Earth.

#### **History**

During term 1, Darwin researched and learnt about the Anglo Saxon rein in Britain including how the rein came to an end. Students are currently working on a Geography topic.

#### PSHE/RSE

Art/DT

Students will be learning some basic first aid as well as how to react in emergency situations.

# Bowman Academy Curriculum Map

## Darwin Class Term 2

#### Geography

Darwin class will be learning about the Alps, Europe's largest mountain range. We will be looking at features, location and climate.

#### R.E.

Darwin will be focussing on Christianity and how Christians see god. We are looking at the Christmas Story and using it to identify why god is seen as being holy.

#### Music

We will be focusing on Egyptian music styles, while understanding how to read basic notes and play them on a xylophone.

Darwin will be looking at different styles of art and using this to apply to their own ideas of Futurism.

### Computing

Students will be looking at how systems work within computer systems including manual and electronical processes.

#### MFL

We will be looking at structuring sentences in French, focussing on how the French use different pronunciations for masculine, feminine and plural nouns.

#### P.E.

We will be learning the rules and skills involved in Badminton, focussing on essential fitness components within the sport.
